Food Science

Advanced credentials in ownership

5

Audit frameworks supported: SQF, AIB, HACCP, GMP, ISO

CLIENTS INCLUDE **Gruma Corporation** · **Mission Foods** · **Azteca Milling** · **North Texas school districts**

COMPANY OVERVIEW

Cavanto Solutions is a specialized sanitation, pest management, environmental, workplace safety and commercial cleaning provider with more than 15 years in food manufacturing and processing. Ownership brings 20+ years of executive leadership and Food Science credentials, so every protocol is grounded in food chemistry, microbiology and processing technology.

HOW WE WORK

1 Site assessment

2 Written program

3 Scheduled service

4 Records & review

Work scheduled around shifts, classes, patient care and events, including nights, weekends and planned shutdowns. Bilingual crews, procedures and training (English / Spanish).

CORE COMPETENCIES

Food Plant Sanitation

CIP with 360° spray devices; manual and semi-manual sanitation; shutdown deep cleaning and dry ice blasting; SSOPs, master sanitation schedules and pre-op inspections

Integrated Pest Management

Zone-based, risk-assessed IPM; device trending and CAPA; exclusion and bird control; Texas school IPM compliance support

Construction Cleaning

Ongoing jobsite cleanouts; rough, final and touch-up cleans; HEPA dust control; pre-occupancy disinfection

Workplace Safety & OSHA Readiness

OSHA readiness assessments; lockout/tagout, HazCom and confined space programs; chemical safety; bilingual safety training

Commercial Cleaning & Disinfection

Custodial and day-porter programs; electrostatic surface disinfection; ULV whole-room fogging; EPA-registered, label-approved chemistry

Environmental Services

Surface, air and water testing with accredited labs; indoor air quality assessments; source-based odor control; ATP verification and KPIs

Consulting & Training

Gap assessments and mock audits; sanitation validation and EMP design; sanitation crew, GMP and chemical-safety training

Sanitation Products

Custom shadow boards; separation screens, curtains and visual aids; janitorial and sanitation supplies (Spartan Chemical, ProBlend)

APPLICATION TECHNOLOGIES

METHOD	PRIMARY USE	SAFEGUARD
Electrostatic	High-touch surfaces: classrooms, clinics, gyms	Product labeled for electrostatic use
ULV fogging	Whole-room disinfection of vacated spaces	Registered fogging product/system
Thermal fogging	Odor control and flying-insect control	Labeled products; licensed applicators
360° CIP / Dry ice	Tanks, lines, ovens and process equipment	Validated cycles; no secondary waste

DIFFERENTIATORS

- **Verified, not assumed:** ATP testing, environmental monitoring and KPI reports.
- **Label-first chemistry:** every product used only by the methods its EPA label allows.
- **Safety built in:** lockout, chemical safety and bilingual training from a team that works the sanitation shift.
- **One partner** for sanitation, pest, environmental, construction, consulting, safety and supplies, with audit-ready documentation.
